

OFFICIAL PRESS RELEASE
HELP GET
PISTOL PACKIN' PAULA
“BACK IN THE SADDLE AGAIN”
OFFICIAL FUND RAISER!

Paula Saletnik, Phoenix Arizona's own World Champion Lady Six Gun Spinner , Bull Whip Artist and All-Around Wild West Performer, Who, for over 12 years entertained Tens of Thousands of Guests at the World Famous Rawhide Theme Park in Scottsdale, performed for Hundreds of Corporate Events & *Fund Raisers*, along with Daily Guest's at the World Famous Ponderosa Ranch {Home of TV's Bonanza}...*Now Needs Our HELP!*...

Paula Saletnik, aka "*Pistol Packin' Paula*", was recently involved in an automobile accident, from which she sustained very serious bodily injury. During the evening of Thursday, January 10, Paula struck a deer while driving on a county highway near her home in Boerne, Texas. As she swerved to miss the animal, her truck rolled countless times and was thrown from the vehicle through the driver side window. When she regained consciousness, she was lying in the nearby grass, with the wheels upturned on her vehicle. As she realized she needed to call for help, her cellular phone was missing from it's holder. Unable to move, she was encouraged when Pepper, her beloved dog, ran nearly a mile to a nearby farmhouse to get help. It was at this exact time that Paula's landlord called her. Fortunately, she was able to reach the cell phone located near her knee, truly a Godsend... An ambulance arrived on the scene shortly thereafter, and she was transported to a nearby "Flight for Life" location. She was then airlifted by helicopter to the University Hospital in San Antonio, TX.

Paula's diagnosed injuries included a broken sternum and pelvis {both sides, front & back}, cracked ribs and fractures to three vertebrae. A surgical procedure was performed on Tuesday, January 15, with several permanent pins implanted. Her Doctors expect a full recovery, *however*, this will take several months or years of therapy and determination. Paula's tough *Cowgirl Spirit* is intact and she WILL twirl her guns and ride her horse again! After her hospital stay, Paula has left the hospital and is staying with friends for the next several months, who will assist her in her therapy and recovery.
